MADE IN POLAND

External aluminium facade venetian blinds by Fart Produkt are a modern and elegant window covering mounted on the exterior of building facades. Thanks to adjustable horizontal aluminium slats (80 or 93 mm width), users can precisely control the amount of light and heat entering the room. Studies show that facade venetian blinds block 80–90% of solar energy before it reaches the glazing — at 35°C outside, interior temperatures can be reduced by up to 10°C. Available in three system variants: Premium Box, Classic, and BeClever — each suited to different architectural and budgetary requirements.

MAIN MATERIAL & CONSTRUCTION

Core: Extruded aluminium slats (80/93 mm, ~0.4 mm thick), powder-coated. Rail: galvanised steel. Webbing: Kevlar-reinforced textile + polyester ladder.

TECHNICAL SPECIFICATIONS

PRODUCT CODE	FP-VB-ALU
SLAT WIDTH	80 mm or 93 mm
SLAT THICKNESS	~0.4 mm aluminium
SYSTEMS AVAILABLE	Premium Box / Classic / BeClever
SOLAR ENERGY REDUCTION	80–90% (exterior position)
TEMPERATURE REDUCTION	Up to 10°C interior vs. exterior

CERTIFICATIONS & COMPLIANCE

- CE Marked — Construction Products Regulation (EU) No 305/2011
- EN 13659:2015 — Shutters and exterior blinds, performance requirements
- ISO 9001:2015 — Quality Management System
- RoHS Compliant — Restriction of Hazardous Substances
- Made in Poland — Country of Origin: PL

TYPICAL APPLICATIONS

- Residential houses & villas
- Office & commercial buildings with large glazing
- Hotels & hospitality facades
- Educational & public buildings
- Architectural facade design projects

KEY FEATURES

80–90% Solar Energy Blockage

Mounted on the exterior facade, the blinds stop solar radiation before it reaches the window glass — far superior to any internal shading solution.

Adjustable Slat Angle

Slats can be raised, lowered, and tilted, offering precise control of light, privacy, and ventilation at any time of day.

Three System Variants

Premium Box for robust heavy-duty installations; Classic for lightweight surface mount; BeClever for new-build window-frame integration with optional full cladding.

Kevlar-Reinforced Webbing

The textile lifting strap is reinforced with Kevlar fibres for superior abrasion resistance and long-term colour stability under outdoor conditions.

IMPORT & LOGISTICS DATA

COUNTRY OF ORIGIN	Poland
HS TARIFF CODE	7616 99 90
WARRANTY PERIOD	24 months
MINIMUM ORDER QTY	1 unit
UNIT WEIGHT	Varies by size
