MADE IN POLAND

Insect screens (mosquito nets) by Fart Produkt protect interiors against insects while allowing free air circulation. The pleated variant (plisowana) features a fabric that folds accordion-style into a compact stack, making it ideal for large openings and passageways. The frame (ramkowa) version uses a fixed aluminium perimeter frame. Both use high-quality fibreglass or polyester mesh. The screens are fully compatible with Fart Produkt roller shutter systems — the SK-45 roller shutter with offset guide (PPMO) is specifically designed for combined installation with a pleated mosquito screen. Aluminium profiles are coated with weather-resistant powder lacquer. Available in standard colour range.

MAIN MATERIAL & CONSTRUCTION

Core: Fibreglass mesh (1.2×1.2 mm opening). Frame: extruded aluminium, powder-coated. Corner joints: glass-filled polyamide.

TECHNICAL SPECIFICATIONS

PRODUCT CODE	FP-MK-PLI
TYPE	Pleated (accordion) & Fixed-frame
FRAME MATERIAL	Extruded Aluminium
MESH MATERIAL	Fibreglass / Polyester
PROFILE FINISH	Powder-coat, weather-resistant
COMPATIBILITY	Fart Produkt roller shutters (SK-45 PPMO guide), windows, doors
INSTALLATION TYPES	Surface mount / In-reveal / Combined with roller shutter
MAX. OPENING WIDTH	Up to approx. 2 400 mm (pleated, single panel)

CERTIFICATIONS & COMPLIANCE

- CE Marked — Construction Products Regulation (EU) No 305/2011
- EN 13561:2015 — External blinds, performance requirements (frame systems)
- ISO 9001:2015 — Quality Management System
- RoHS Compliant
- Made in Poland — Country of Origin: PL

TYPICAL APPLICATIONS

- Residential windows & balcony doors
- Combined installation with roller shutters
- Hotels & rental properties
- Conservatories & verandas
- Commercial buildings in tropical / subtropical climates

KEY FEATURES

Pleated Accordion Design

The fabric folds neatly to one or both sides, leaving the full opening clear when not in use — ideal for large windows, French doors, and balcony doors.

Integrated Roller Shutter Compatibility

Specifically engineered to work alongside Fart Produkt's SK-45 roller shutter using offset guides (PPMO) and a combined bottom bar (LDSM MKT) — both functions in one installation.

Aluminium Frame — Durable & Lightweight

Extruded aluminium profiles with powder-coat finish resist corrosion, UV degradation, and mechanical wear, ensuring a long service life in outdoor conditions.

Effective Insect Protection

1.2 × 1.2 mm standard mesh opening blocks mosquitoes, flies, and other insects while allowing full air ventilation without restriction.

IMPORT & LOGISTICS DATA

COUNTRY OF ORIGIN	Poland
HS TARIFF CODE	6304 91 00
WARRANTY PERIOD	24 months
MINIMUM ORDER QTY	5 units
UNIT WEIGHT	Varies by size (approx. 1.5–8 kg/unit)
UNIT DIMENSIONS	Custom per order
UNITS / CARTON	1–5 units
CARTON WEIGHT (GROSS)	Varies (incl. packaging)
CARTON DIMENSIONS	Custom per order
