

Exterior venetian blinds W-ŻF

Exterior venetian blinds with adjustable slats - they block 80-90% of solar energy before it reaches the glass.

Fart Produkt Sp. z o.o. sp.k. · ul. Towarowa 3, 87-100 Toruń · NIP 8792684425 · www.fartprodukt.pl

MADE IN POLAND

Fart Produkt aluminium exterior venetian blinds are a modern, elegant window covering mounted on the outside of the facade. Adjustable horizontal slats (80 or 93 mm wide) give precise control over how much light and heat enters the room. Facade blinds block 80-90% of solar energy before it reaches the glass - at 35°C outside, the indoor temperature can drop by up to 10°C. Available in three system variants: head box, masking cover and PVC box, to suit different architectural requirements and budgets.

⊗ MAIN MATERIAL AND CONSTRUCTION

- Slats:** aluminium (80/93 mm, ~0.4 mm thick), powder coated.
- Head rail:** galvanised steel.
- Tapes:** Kevlar-reinforced lifting tape + polyester ladder tape.

⊙ MADE-TO-MEASURE PRODUCT

W-ŻF facade blinds are made to order - to the specific dimensions, the chosen slat profile and the architectural solution. Every variant uses the same high-quality materials.

TECHNICAL SPECIFICATIONS

PRODUCT CODE	W-ŻF
VARIANTS / SYSTEMS	head box / masking cover / PVC box
SLAT WIDTH	80 mm or 93 mm
SLAT THICKNESS	~0.4 mm aluminium
SOLAR ENERGY REDUCTION	80-90% (exterior position)
TEMPERATURE REDUCTION	up to 10°C indoor vs. outdoor
SLAT MATERIAL	Aluminium
FINISH	Powder coating
HEAD RAIL	Galvanised steel
LIFTING TAPE	Kevlar lifting tape + polyester ladder tape

CERTIFICATIONS AND COMPLIANCE

- ✓ CE marking - Construction Products Regulation (EU) No 305/2011
- ✓ EN 13659:2015 - Shutters and external blinds, performance requirements
- ✓ ISO 9001:2015 - Quality Management System
- ✓ RoHS compliant
- ✓ Made in Poland - Country of origin: PL

TYPICAL APPLICATIONS

- Houses and residential villas
- Office buildings with large glazing
- Hotel facades
- Public and educational buildings
- Architectural facade projects

KEY FEATURES

- Blocks 80-90% of solar energy**
Mounted outside, the blinds stop radiation before it reaches the glass - far more effective than any interior shading.
- Adjustable slat angle**
The slats can be raised, lowered and tilted, giving precise control of light, privacy and ventilation at any time of day.
- Three system variants**
Head box for robust, heavy-duty installations; masking cover for light surface mounting; PVC box for integration into the window frame in new construction.
- Kevlar-reinforced tape**
The lifting tape is reinforced with Kevlar fibres - higher abrasion resistance and colour stability outdoors.
