

Insect screens W-M

Aluminium-framed insect screens, made to measure - for windows, doors and roller shutters.

Fart Produkt Sp. z o.o. sp.k. · ul. Towarowa 3, 87-100 Toruń · NIP 8792684425 · www.fartprodukt.pl

MADE IN POLAND

Fart Produkt insect screens keep insects out while letting air circulate freely. The pleated variant has a mesh that folds like an accordion into a compact pack, ideal for large openings and doorways. The frame version uses a fixed aluminium perimeter frame. Both use high-quality fibreglass mesh. Fully compatible with Fart Produkt roller shutters - the SK-45 shutter with offset guide rail (PPMO) is designed for combined installation with a pleated screen. The aluminium profiles are powder coated and weather-resistant.

⊗ MAIN MATERIAL AND CONSTRUCTION

- Mesh:** fibreglass (1.2×1.2 mm aperture).
- Frame:** powder-coated aluminium.
- Corner joints:** glass-fibre reinforced polyamide.

⊙ MADE-TO-MEASURE PRODUCT

W-M insect screens are made to order - to fit the specific openings and the chosen frame type or system. Every variant uses the same high-quality materials.

TECHNICAL SPECIFICATIONS

PRODUCT CODE	W-M
VARIANTS / SYSTEMS	pleated / framed / roller / sliding
FRAME MATERIAL	Aluminium
MESH MATERIAL	100% fibreglass
MESH APERTURE	1.2 × 1.2 mm
PROFILE FINISH	Powder coating, weather-resistant
COMPATIBILITY	Fart Produkt shutters (SK-45 PPMO guide), windows, doors
INSTALLATION TYPE	Surface / in reveal / combined with shutter
MAX. OPENING WIDTH	up to approx. 2,400 mm (pleated, single panel)

CERTIFICATIONS AND COMPLIANCE

- ✓ CE marking - Construction Products Regulation (EU) No 305/2011
- ✓ EN 13561:2015 - External blinds and awnings, performance requirements (frame systems)
- ✓ ISO 9001:2015 - Quality Management System
- ✓ RoHS compliant
- ✓ Made in Poland - Country of origin: PL

TYPICAL APPLICATIONS

- Residential windows and balcony doors
- Combined installation with shutters
- Hotels and rental properties
- Greenhouses and verandas
- Buildings in tropical climates

KEY FEATURES

- Pleated accordion design**
The mesh folds neatly to one or both sides, leaving the opening completely clear when not in use - ideal for large windows and balcony doors.
- One unit with the roller shutter**
Designed to work with the Fart Produkt SK-45 shutter using offset guide rails (PPMO) and a combined bottom bar (LDSM MKT) - both functions in a single installation.
- Aluminium frame - light and durable**
Powder-coated aluminium profiles resist corrosion, UV degradation and wear, ensuring a long service life outdoors.
- Effective insect protection**
The standard 1.2 × 1.2 mm mesh aperture stops mosquitoes, flies and other insects while allowing full ventilation.
